Student Cash: A Directory of Learner Funding Sources (4th edition)

This directory provides information about sources of funding for people who are interested in taking part in education and training in the UK, and includes public, private and charitable sources of funding. It is suitable for school pupils who are beginning to make important decisions about their future learning, for college students who are moving on to university and for people who are interested in work-based learning schemes such as apprenticeships. Each entry includes information about the type of scheme, amount of money, eligibility criteria, application procedures, contact details and links to the relevant funding organisation. A full list of contents is available on our website.

University Tuition Fees, Bursaries and Scholarships (2016/17)

This book provides information about university tuition fees, bursaries and scholarships for every university in the United Kingdom. All tables are in the same format for ease of reference and comparison. Each table includes information about the amount of tuition fee charged, fee waivers and fee grants, university bursaries, university scholarships, application procedures and additional information, such as funding rules and regulations. Full contact information for each university is also provided. The electronic copy of this book is easy to navigate, with students able to link instantly to relevant websites.

Financial Survival for Students (8th edition)

This book provides information about sources of income for students, such as loans, grants, bursaries and charitable funding. It goes on to look at how much college and university will cost, including information about tuition fees, accommodation costs, utilities, course materials and entertainment. The final section helps students to manage their money and avoid debt. This is now the eighth edition of this book, which has proved to be very popular with students, parents, careers teachers and advice workers. In particular, it has been praised for the 'no-nonsense, down-to-earth' style. A full list of contents and sample chapters are available on our website.

Going to College and University (6th edition)

This book provides a comprehensive guide for young people who are thinking about going away to college and university. It includes information about making effective learning choices, applying to college and university, choosing accommodation, understanding study requirements, knowing about the benefits of further and higher education and raising awareness of health and safety on and off campus. The book provides a complete resource for those who want to know more about what to expect, and has proved to be popular with students and parents. A list of contents and sample chapters are available on our website.

Financial Support for Adult Learners (7th edition)

This book is aimed at people who are thinking about returning to education and adult learners who are struggling financially. It provides information about sources of funding for further and higher education, and for work-based learning. This includes information about grants, bursaries, career development loans and funding from trusts and charities. This book has been praised for providing 'clear, simple and straightforward' information, and for simplifying some of the more complex funding schemes. This includes information about tax credits and benefits, and how these might be affected by student financial support. A full list of contents is available on our website.
